INTERNATIONAL
KNOW-HOW

100% Made in France...

with the milk of **Sodiaal farms**

Nutribio belongs to the **Sodiaal Group, #1 French dairy cooperative**. This unique advantage guarantees **high-quality, 100% French milk** for our nutritional formulas, with **complete traceability**.

SODIAAL, #1 FRENCH DAIRY COOPERATIVE:

A leading player on the dairy market in Europe, Sodiaal Group has more than 20,000 milk producers and collects almost 5 billion liters of milk a year, 20% of France's entire milk collection.

We produce our formulas in Sodiaal farms under strict quality standards called
«La Route du Lait».

LA ROUTE DU LAIT

A global quality standard established by Sodiaal Group in 1997, which guarantees:

- **High-quality milk:** « La Route Du Lait » meets the requirements of the European regulation to obtain high-quality milk, which is strictly controlled by almost 600,000 analyses a year.

- **Animal well-being:** through « La Route Du Lait » charter, our milk producers pay particular attention to the welfare of their cattle, ensuring that they are properly housed, well-fed and in good health.

- **Respect of the environment:** « La Route Du Lait » assures a reduction of energy and water consumption, waste recycling and protection of water flows. Sodiaal is fully committed to «La Ferme Laitière Bas Carbone» («Low Carbon Dairy Farm») interprofessional programme, which aims to reduce greenhouse gas emissions by 20% by 2025.

100% Made in France...

in our 4 production sites following the highest quality standards

At Nutribio, we develop, produce and package 100% of our infant and adult formulas in our four French plants, located in Doullens, Guingamp, Montauban and Carhaix, in close proximity to the dairy collection areas.

GUINGAMP

- 1 spray tower

Made in France

MONTAUBAN

- 2 spray towers
- Specialization in **Organic** formulas
- New High Hygiene area
- **New packing line**

NEW
IN 2020

The european organic expert

MONTAUBAN, OUR PRODUCTION SITE 100% DEDICATED TO ORGANIC FORMULAS

Our manufacturing site of Montauban has been entirely dedicated to the production of **organic infant milk formulas** since 2019.

A local and organic production which begins with the organic milk collected by our 568 farmers located in the nearby areas (South-West, South-East and the Massif Central regions of France).
Our farmers are daily committed to produce a **high-quality organic milk**.

A SAFE AND SECURE ACCESS TO ORGANIC MILK

In recent years, Sodiaal has **increased its production of organic milk** to meet the growing demand worldwide. A strong, long-term partnership has been formed between Sodiaal and its producers **to guarantee and secure a large supply of organic milk** for Nutribio. This cooperation has helped **build a 100% integrated «organic chain»**, set up to guarantee the very best products of organic agriculture.

UNIQUE AND PATENTED TECHNOLOGY FOR THE PRODUCTION OF ORGANIC INFANT MILK FORMULA: TRUE GREEN

Nutribio scientific and technical teams have developed a unique, innovative and patented technology* to produce organic infant milk formulas: True Green.

This manufactured new generation of organic infant milk formulas is manufactured from **100% French dairy ingredients** and meets the specific requirements of both **French and European regulations.**

HISTORICAL ORGANIC EXPERTISE

Over the years, Nutribio scientific and technical teams have developed a solid and recognized organic expertise.

This know-how is recognised by independent bodies: French AB certification, Ecocert certification for over 15 years and COFCC (China Organic Food Certification Center) certification for almost 5 years. Nutribio engineers are at your service to help you formulate your certified organic products, regardless of the country of sale.

OUR BRANDS

NACTALIA SMILE TO LIFE!

Nutribio scientific teams have developed Nactalia formulas to provide babies with nutrients they need to help them grow and discover life one step at a time.

Nactalia propose different ranges to meet all baby's needs.

- › Formulas developed by our scientific experts using natural ingredients, combined with nutrients essential to baby's development*
- › More than 35 years of expertise in infant nutrition
- › 100% French quality and production

SUNNY BABY

Sunny Baby is a range of products that meets the nutritional needs of babies and infants up to 3 years old, contributing to their good development, while remaining affordable. Sunny Baby is mainly marketed in the Middle East.

Breast milk is the primary source of nutrition for your baby. It brings all the necessary nutrients for baby's growth. Nutribio complies with the WHO recommendations regarding the marketing of infant formulations.

Adult nutrition

Targeting specific nutritional needs throughout life. NUTRIBIO has spent 27 years developing expertise in specialized nutrition for adults and tailor-made products in the form of powders and bars to address specific nutritional needs.

OUR ACTIVE NUTRITION RANGE

Technical, gourmet products targeting the specific needs of middle-aged and seniors
